SUMMARY

Adaptive Software Engineer with 2+ years of experience across multiple platform and contemporary framework to deliver a performance, efficient and friendly execution of code through enjoyable debugging. Familiar with JS, PHP, MERN, Next, Astro, React Native, SQL, and Firebase.

What do I mean by Adaptive? I don't blame any environment, I adjust myself to suit it instead. Thank you HRD Manager for reading this. I hope you are doing well and keep going up. You deserved a happiness.
